

## DRYLAND SUNFLOWERS (No-till, mono-unsaturated)

Farm Enterprise Budget Series - North West NSW

Summer 2012-2013

### 1. GROSS MARGIN BUDGET:

#### INCOME:

1.00 tonnes/ha at \$520.00 /tonne (on farm).....

Standard Budget \$/ha	Your Budget \$/ha
\$520.00	

Cartage costs will vary with distance, so have not been included. The on-farm price is after cartage.

Crop prices were correct at the time of writing (Aug 2012), world market volatility makes estimation of future pricing impractical.

#### A. TOTAL INCOME \$/ha:

### AGRONOMIC NOTES:

**Sowing:** Early spring sowing (mid-late Aug) allows the crop to flower before high temperatures cause heat stress.

Do not sow poly-unsaturated sunflowers in spring as low quality oil is unacceptable to margarine manufacturers.

**Insects:** 1st insect spray assumed applied at late bud stage to control Rutherglen bug; 2nd spray applied if necessary normally 1 in 3 years at around mid flowering stage (heliathis and Rutherglen bug)

**Weeds:** To reduce the likelihood of herbicide resistance, rotate herbicide groups and weed management techniques.

**Fertiliser:** Fertiliser requirements should be based on paddock records and soil tests.

Nitrogen fertiliser may be required where deficiencies are known to exist.

**Insurance:** \* Varies with Local Government Area and postcode, check with your insurer.

# harvest costs based on \$64.94 (including \$4.94/ha fuel) /ha for a crop up to 2.5 t/ha.

For further information refer to NSW Department of Primary Industries "Summer Crop Production Guide 2012-13"

*Use of a particular brand name does NOT imply recommendation of that brand by NSW DPI.*

*Always read chemical labels and follow directions, as it is your legal responsibility to do so.*

**LABOUR REQUIREMENTS:** - labour is not costed in this budget. If labour costs \$21.70 /hr, total labour cost would be \$3.26, reducing the gross margin to \$214 /ha.

### MACHINERY ASSUMPTIONS:

Tractor: 201 KW PTO (269 HP)

Machinery costs refer to variable costs of: fuel, oil, filters, tyres, batteries and repairs.

You may need to add overhead costs as well, please refer to the Tractor and Implement Costs Guide
